

Reduce, Reuse and Recycle for Easter

Try these egg-cellent hints and tips to have a more eco-friendly Easter and save yourself some cash too!

Reduce packaging waste by choosing Easter eggs with less packaging. Better still, consider alternative Easter gifts with less packaging, like these homemade Easter bunny biscuits which are great fun and easy to make

<https://recipes.sainsburys.co.uk/recipes/baking/easter-bunny-cookies>

Reduce food waste by using up leftovers to make this tasty Love Food Hate Waste hearty lamb hotpot <https://www.lovefoodhatewaste.com/recipe/hearty-lamb-pot> or use up stale hot cross buns in this hot-cross-pud http://www.bbc.co.uk/food/recipes/hotcrossbunandbakedc_85970

Try these fun and easy crafty ideas to reuse plastic bottles, toilet roll tubes, egg cartons and empty jars to make Easter decorations and gifts.

EASTER BUNNY VASES

And don't forget to recycle your Easter egg packaging!

- The card box and foil wrapping are recyclable. Check out the handy directory on our website to see how you can recycle these where you live: <http://www.recycleforcumbria.org/recycling/wheredoyoulive.asp>
- The plastic inside is not currently recyclable so choose eggs without this if you can. Nestle have removed plastic from all their Easter egg boxes.
